Summary

KEY POINT SUMMARY

- Application for a Medical Centre which falls within the Commercial Use Class under the Kingaroy Shire IPA Planning Scheme;
- Property is zoned Residential with Preferred Land Use Area of Residential B;
- Application is Code "Inconsistent" within the Residential Zone of the Kingaroy Shire IPA Planning Scheme;
- The proposed Medical Centre is a low scale use of the existing dwelling house within an area of mixed residential and non-residential land uses and is considered an appropriate use located within 650m of the Kingaroy CBD; and
- Application is recommended for approval subject to reasonable and relevant conditions.

Officer's Recommendation

That Council approve the Development Application for a Material Change of Use (Medical Centre) located at 53 Edward Street, Kingaroy (and described as Lot 455 on FY1701), subject to the following conditions:

General

- GEN1. The subject site is to be developed generally in accordance with the plans and information submitted with the application unless otherwise amended by the following conditions:
- Ref. Nos: Project No. 13-1744-SPY, Sheet 6 – Proposed Site Plan;
 - Ref. Nos: Project No. 13-1744-SPY, Sheet 7 – Proposed Floor Plan;
 - Ref. Nos: Project No. 13-1744-SPY, Sheet 8 & 9 – Proposed Elevations 1 & 2;
 - Ref. Nos: Project No. 13-1773-SPY, Sheet 10 & 11 – 3D Views;
 - Ref. Nos: Project No. 13-1773-SPY, Sheet 12-20 – Turning Movement Plans.
- GEN2. The development herein approved may not start until the following development permits have been issued and complied with as required:
- Development Permit for Building Works; and
 - Development Permit for Plumbing and Drainage Work.
- GEN3. All works, including the repair or relocation of services (Telstra, lighting) is to be completed at no cost to Council.
- GEN4. Dust prevention measures must be undertaken to ensure that dust does not cause a nuisance to occupiers of adjacent properties.
- GEN5. Maintain the site in a clean and orderly state at all times.
- GEN6. Any new earthworks or structures are not to concentrate or impede the natural flow of water across property boundaries and onto any other lots.

Compliance Assessment

- GEN7. All conditions of this approval are to be satisfied prior to Council issuing a Compliance Certificate for the commencement of the use, and it is the applicant's responsibility to notify Council to inspect compliance with conditions.

A Compliance Certificate fee will be charged, with payment required prior to Council approval of the associated documentation requiring compliance assessment.

Approved Use

- GEN8. This approval is for a Medical Centre with a total area of 183.8m² and does not imply approval for other similar uses. The subject site is not to be used for any other purpose unless in the opinion of Council is subservient to the predominant use of the site for a Medical Centre.

Fencing

- MCU1. Construct a solid screen fence along the Youngman Street frontage and laneway and eastern boundary to a height not exceeding 1.8m from natural ground level.
- MCU2. The fence along the eastern boundary of the site is tapered to 1.2m in height over a length of 4m towards Edwards Street.

Refuse Storage Collection

- MCU3. Provision must be made for the storage and removal of refuse in accordance with the *Environmental Protection (Waste Management) Regulation 2000*.
- MCU4. Any areas that are dedicated for the collection and/or storage of solid waste on the premises are to be:
- a) level;
 - b) provided with impervious hard stand and drained; and
 - c) if facing either the street frontage or adjoining properties, screened by a 1.8m high fence around the full perimeter.

- MCU5. Refuse bin areas are to be provided for the washing out of the refuse bins and in connection with this:
- a) all tap outlets must be fitted with backflow prevention devices;
 - b) the floor areas are to be drained to sewer; and
 - c) areas are to be covered and drainage designed such that water not associated with the washing out process (e.g. rainfall) does not enter the sewer.

- MCU6. Medical Waste – Cytotoxic and infectious disease waste is not to be disposed of through the general waste stream. Cytotoxic and infectious disease waste must be disposed of via a regulated waste transporter/disposal operator.

Landscaping

- MCU7. The site is to be landscaped in accordance with Planning Scheme Policy No. 5 – Landscaping prior to commencement of the use. A detailed landscaping plan prepared in accordance with Planning Scheme Policy No.5—Landscaping is to be submitted to Council for Compliance Assessment prior to any work commencing on site.

- MCU8. Landscaped planting is to be established as per the following requirements:-
- 2m wide strip along the Edward Street road frontage (excluding vehicle manoeuvring areas) as indicated on the site plan;

Plant species may be selected from Council's Branching Out – Your Hand Guide to Tree Planting in the South Burnett.

Mechanical Plant

- MCU9. Mechanical plant (air conditioning, refrigeration equipment and pumps) must comply with the *Environmental Protection Act 1994*.

Air conditioning and refrigeration equipment must achieve no more than 3dB(A) above the background level from 10pm to 7am and no more than 5dB(A) above the background level from 7am to 10pm when measured at an affected building.

Pumps (including heat pumps) must not be audible from 10pm to 7am, no more than 5dB(A) above the background level from 7am to 7pm and no more than 3dB(A) above the background level from 7pm to 10pm when measured at an affected building.

Hours of Operation

- MCU10. The hours of operation for the Medical Centre shall generally be Monday to Friday 8.00am to 5.00pm excluding Public Holidays.

Property Access

- ENG1. Property access shall be provided in accordance with the details in Table S2.7 – *Design and Construction Standards* of the Kingaroy Shire Council IPA Planning Scheme; and IPWEAQ standard Drawing No. SEQ R-051, Type A, with dimension W1 being the greater of:
- a. 6.0m; and
 - b. the minimum value necessary to meet the swept path requirements of both the Small Rigid Vehicle (SRV) as defined in AS/NZS 2890.2 and the Service Vehicle defined on Concept Plan *Turning Movements Plan 9*, Project No. 13-1744-SPY Sheet 20 dated 7th February 2014.
- ENG2. Only one access to the site will be permitted.
- ENG3. Fencing, landscaping and letterboxes must not to impede sight lines for vehicles exiting the site.
- ENG4. Road works and entrances shall be constructed so as to:

- a. remove all disused vehicle entrances and reinstate kerbing consistent with the adjacent kerb profile;
- b. permit access and egress from the site in a forward gear;
- c. avoid a trip hazard to pedestrians; and
- d. ensure that low-clearance vehicles can clear the cross-over pavement upon entering and leaving the property.

Car Parking & Manoeuvrability

- ENG5. Provide a minimum of five (5) line-marked car parking spaces, comprising of four (4) for B99 vehicles and one (1) disabled bay in accordance with the requirements of Schedule 1 and Table S1.1 of the Kingaroy Shire Council IPA Planning Scheme and in compliance with the requirements of the current version of AS/NZS 2890.1.
- ENG6. The disabled car park shall be designed and constructed in accordance with the requirements of the current version of AS/NZS 2890.6.
- ENG7. Provide one (1) ambulance parking space outside the Reception area 10.5m long, 3.5m wide and having 3.5m vertical clearance, in accordance with the requirements of Schedule 1 and Table S1.1 of the Kingaroy Shire Council IPA Planning Scheme.
- ENG8. All driveways, vehicle manoeuvring areas and turning radii shall be designed and constructed in all other respects in accordance with the requirements of the current version of AS/NZS 2890.1 for a B99 vehicle, except that the turning radii and areas used by the ambulance including the driveway, parking and manoeuvring areas shall be designed and constructed in accordance with the requirements of the current version of AS/NZS 2890.2 to suit both a Small Rigid Vehicle (SRV) and the Service Vehicle defined on Concept Plan *Turning Movements Plan 9*, Project No. 13-1744-SPY Sheet 20 dated 7th February 2014.
- ENG9. Kerbing associated with the car parking bays shall be low enough to provide for clearance under vehicles as the B99 swept vehicle path intrudes over them.
- ENG10. The car parking areas and internal driveways shall be constructed, drained and surfaced with either asphaltic concrete, bitumen or reinforced concrete so as to minimise dust emissions, erosion and sediment run-off. The construction and design shall be in accordance with the current version of AS/NZS 2890.1.

Stormwater

- ENG11. Submit an on-site Stormwater Management Plan (SMP) for Compliance Assessment by Council's General Manager of Infrastructure, indicating drainage paths for all roofed and impervious areas. The on-site SMP shall also detail the following:
- Hydraulic design for stormwater including sizing and location of all proposed pipes and channels;
 - Location of gully pits, field inlets, etc.;
 - Details of all pre and post development flows; and
 - Details of any cut or fill required to direct stormwater to a legal point of discharge.

A Compliance Certificate fee will be charged, with payment required prior to Council approval of the associated documentation requiring compliance assessment.

- ENG12. All stormwater drainage systems, including all surface, underground and roof water components, shall effectively drain all stormwater falling onto the proposed development to Council's stormwater system, rain water tanks or other lawful point of discharge.
- ENG13. A stormwater drainage system draining to the street or stormwater network shall be installed to serve the site, designed in accordance with the provisions of the Queensland Urban Drainage Manual (QUDM), so that the post-development flows at

the point of discharge to all downstream properties including road reserves remains consistent with the pre-developed case. All engineering designs submitted to Council for engineering approval must be certified by an appropriate Registered Professional Engineer of Queensland.

- ENG14. Stormwater drainage shall be designed such that no restriction to existing or developed stormwater flow from upstream properties or ponding of stormwater within upstream properties occurs as a result of the development.
- ENG15. Heavy duty galvanized steel roof water kerb adaptors (Kacey or similar), shall be installed in the kerb and channelling during construction in all locations where inter-allotment drainage systems are not required, in accordance with South Burnett Regional Council requirements and to the satisfaction of Council. Stormwater socket reducers may be required to accommodate these, depending on the pipe diameters proposed.
- ENG16. Any new earthworks, landscaping, pavements or structures shall not concentrate or impede the natural flow of water across property boundaries and onto any other lots.

Lighting

- ENG17. The applicant shall ensure that all external lighting (not including street lighting) is designed in accordance with the requirements of AS4282-1997 "*Control of the Obtrusive Effects of Outdoor Lighting*".
- ENG18. The applicant shall design and install all artificial illumination so as not to cause a nuisance to occupants of nearby premises and any passing traffic. Direct security and flood lighting away from adjacent premises.

Advice

- ADV1. The Department of Transport and Main Roads (refer to Concurrence Agency Conditions) have additional requirements in relation to access and noise.
- ADV2. Any work over or adjacent to Council's sewer infrastructure, including the construction/rebuilding/alteration of buildings or other structures and filling or excavation of material, is to be in accordance with the Queensland Development Code (Part 1.4 – Building over or near relevant infrastructure).
- ADV3. Section 341(1) of the *Sustainable Planning Act 2009* provides that, if this approval is not acted upon within the period of four (4) years the approval will lapse. Note that in accordance with section 341(7) a related approval may extend the relevant (currency) period.
- ADV4. This development approval does not authorise any activity that may harm Aboriginal Cultural Heritage. Under the *Aboriginal Cultural Heritage Act 2003* you have a duty of care in relation to such heritage. Section 23(1) provides that "A person who carries out an activity must take all reasonable and practicable measures to ensure the activity does not harm Aboriginal Cultural Heritage." Council does not warrant that the approved development avoids affecting Aboriginal Cultural Heritage. It may therefore, be prudent for you to carry out searches, consultation, or a Cultural Heritage assessment to ascertain the presence or otherwise of Aboriginal Cultural Heritage. The Act and the associated duty of care guidelines explain your obligations in more detail and should be consulted before proceeding. A search can be arranged by visiting <http://www.datsima.qld.gov.au> and filling out the Aboriginal and Torres Strait Islander Cultural Heritage Search Request Form
- ADV5. Attached for your information is a copy of Division 8 of the Sustainable Planning Act 2009 as regards Rights of Appeal. With respect to Appeal Rights of Applicants, the following is drawn to your attention—

- a) the applicant's Appeal Period commences upon receipt of this advice and expires twenty (20) business days thereafter.
- b) should the applicant notify the Assessment Manager (Council) in writing of acceptance of the conditions of approval and that it is not intended to make an appeal, the Applicant's Appeal Period is at an end.

South Burnett Regional Council – Proposed Temporary Local Planning Instrument (Historic Subdivisions)

Summary

- Council recognises the potential for adverse social and economic impacts resulting from the construction of Dwelling Houses within historic subdivisions in the absence of roads and other infrastructure
- Council's current four Planning Schemes do not contain sufficient provisions to ameliorate the potential for these impacts to occur
- A Temporary Local Planning Instrument (TLPI) is a mechanism to apply alternative requirements to historic subdivisions until a more permanent solution is adopted via the new Planning Scheme
- The proposed TLPI provides specific requirements that require a site within a historic subdivision to have frontage to a constructed road, sufficient area for on-site effluent disposal, and demonstrated flood immunity before a house can be built on a lot in a historic subdivision
- Where the above provisions cannot be met an impact assessable application is triggered allowing Council to issue a preliminary approval that requires infrastructure to be provided before a development permit can be issued or alternatively to refuse the application where urban development is not considered appropriate
- Council is required to advise the Department of State Development, Infrastructure and Planning (DSDIP) of the decision to make a TLPI and request that the Minister for State Development, Infrastructure and Planning consider the TLPI
- There is no requirement to undertake public notification prior to submitting the TLPI to the Minister
- Once the Minister for State Development, Infrastructure and Planning has considered the TLPI the Minister may advise the Council that it can adopt the TLPI

Officer's Recommendation

That Council resolve to:

- a) Adopt a Temporary Local Planning Instrument dealing with historic subdivisions within the South Burnett Region;

Proposed Temporary Local Planning Instrument (Historic Subdivisions)

SOUTH BURNETT REGIONAL COUNCIL TEMPORARY LOCAL PLANNING INSTRUMENT 01/14 RESIDENTIAL DEVELOPMENT WITHIN HISTORIC SUBDIVISIONS

1. Citation

This Temporary Local Planning Instrument may be cited as TLPI 01/14 (Residential Development within Historic Subdivisions).

2. Application

This Temporary Local Planning Instrument applies to development on land shown as “properties subject to TLPI 01/14” on the map within Appendix A and listed within Appendix B and to infrastructure associated with the development of the land.

3. Purpose of this Temporary Local Planning Instrument

The purpose of this Temporary Local Planning Instrument is to ensure that the construction of dwellings on land within historic subdivisions occurs after road and other infrastructure is constructed to minimise the potential for adverse social and economic impacts within the land and the surrounding area and to ensure that the level of infrastructure provided to development is consistent with Council’s current subdivision engineering standards.

This instrument is to provide controls for the development of land within historic subdivisions for up to 1 year or until such time as the South Burnett SPA Planning Scheme is adopted by Council which provides specific levels of assessment and assessment criteria for the development of land within mapped historic subdivisions.

4. Effect of this Temporary Local Planning Instrument

This Temporary Local Planning Instrument affects the operation of the Kingaroy, Murgon, Nanango and Wondai Shire Councils IPA Planning Schemes by:

- a) replacing level of assessment Table 10A of the Kingaroy Shire Council IPA Planning Scheme so far as it relates to a Material Change of Use for a Dwelling House or Relatives Unit on land within the Village Locality (Village B preferred land use area) identified on the maps within Appendix A and listed within Appendix B with a new table;
- b) replacing level of assessment Tables 3A, 5A and 10A of the Nanango Shire Council IPA Planning Scheme so far as they relate to a Material Change of Use for a Dwelling House or Annexed Unit on land within the Rural Locality, Village Locality and Urban Locality (Community Expansion Zone, Residential Zone) identified on the maps within Appendix A and listed within Appendix B with a new Table 1;
- c) replacing level of assessment Table 3A of the Wondai Shire Council IPA Planning Scheme so far as it relates to a Material Change of Use for a Dwelling House or Annexed Unit on land within the Rural Locality identified on the maps within Appendix A and listed within Appendix B with a new table;
- d) replacing level of assessment Table 3A of the Murgon Shire Council IPA Planning Scheme so far as it relates to a Material Change of Use for a Dwelling House or Annexed Unit on Land within the Rural Locality identified on the maps within Appendix A and listed within Appendix B with a new table;

- e) providing a new Historic Subdivision Code in each of the planning schemes;
- f) providing an additional trigger in each of the Kingaroy, Murgon and Wondai Shire Councils IPA Planning Schemes for Operational Works;
- g) providing an additional trigger in the Nanango Shire Council IPA Planning Scheme for Operational Works in Table 2.

5. Duration

TLPI 01/14 (Residential Development within Historic Subdivisions) has effect in accordance with the *Sustainable Planning Act 2009* for a period not exceeding one (1) year from the date that it came into effect.

6. Definitions

Each term used in this instrument that is defined within the *Sustainable Planning Act 2009* has the meaning given for that term in that Act, and other terms used in this instrument that are defined within the Kingaroy, Murgon, Nanango and Wondai Shire Council's IPA Planning Schemes have the meaning given for that term in the Kingaroy, Murgon, Nanango and Wondai Shire Council's IPA Planning Schemes.

7. Relationship to the *Sustainable Planning Act 2009*

To the extent of any inconsistency between the *Sustainable Planning Act 2009* and this Temporary Local Planning Instrument, the *Sustainable Planning Act 2009* prevails.

- (1) Where historical flood data exists, it may be possible to use this information to determine the highest known flood level. Historical data may include:
- formally recorded gauge heights records for a number of floods;
 - formally surveyed peak flood levels;
 - photographs of a historical flood;
 - 'high-water' marks recorded on public or private property; and
 - interviews with long-term residents.

Historic Subdivision Code

(1) PURPOSE OF THE CODE – Overall Outcomes

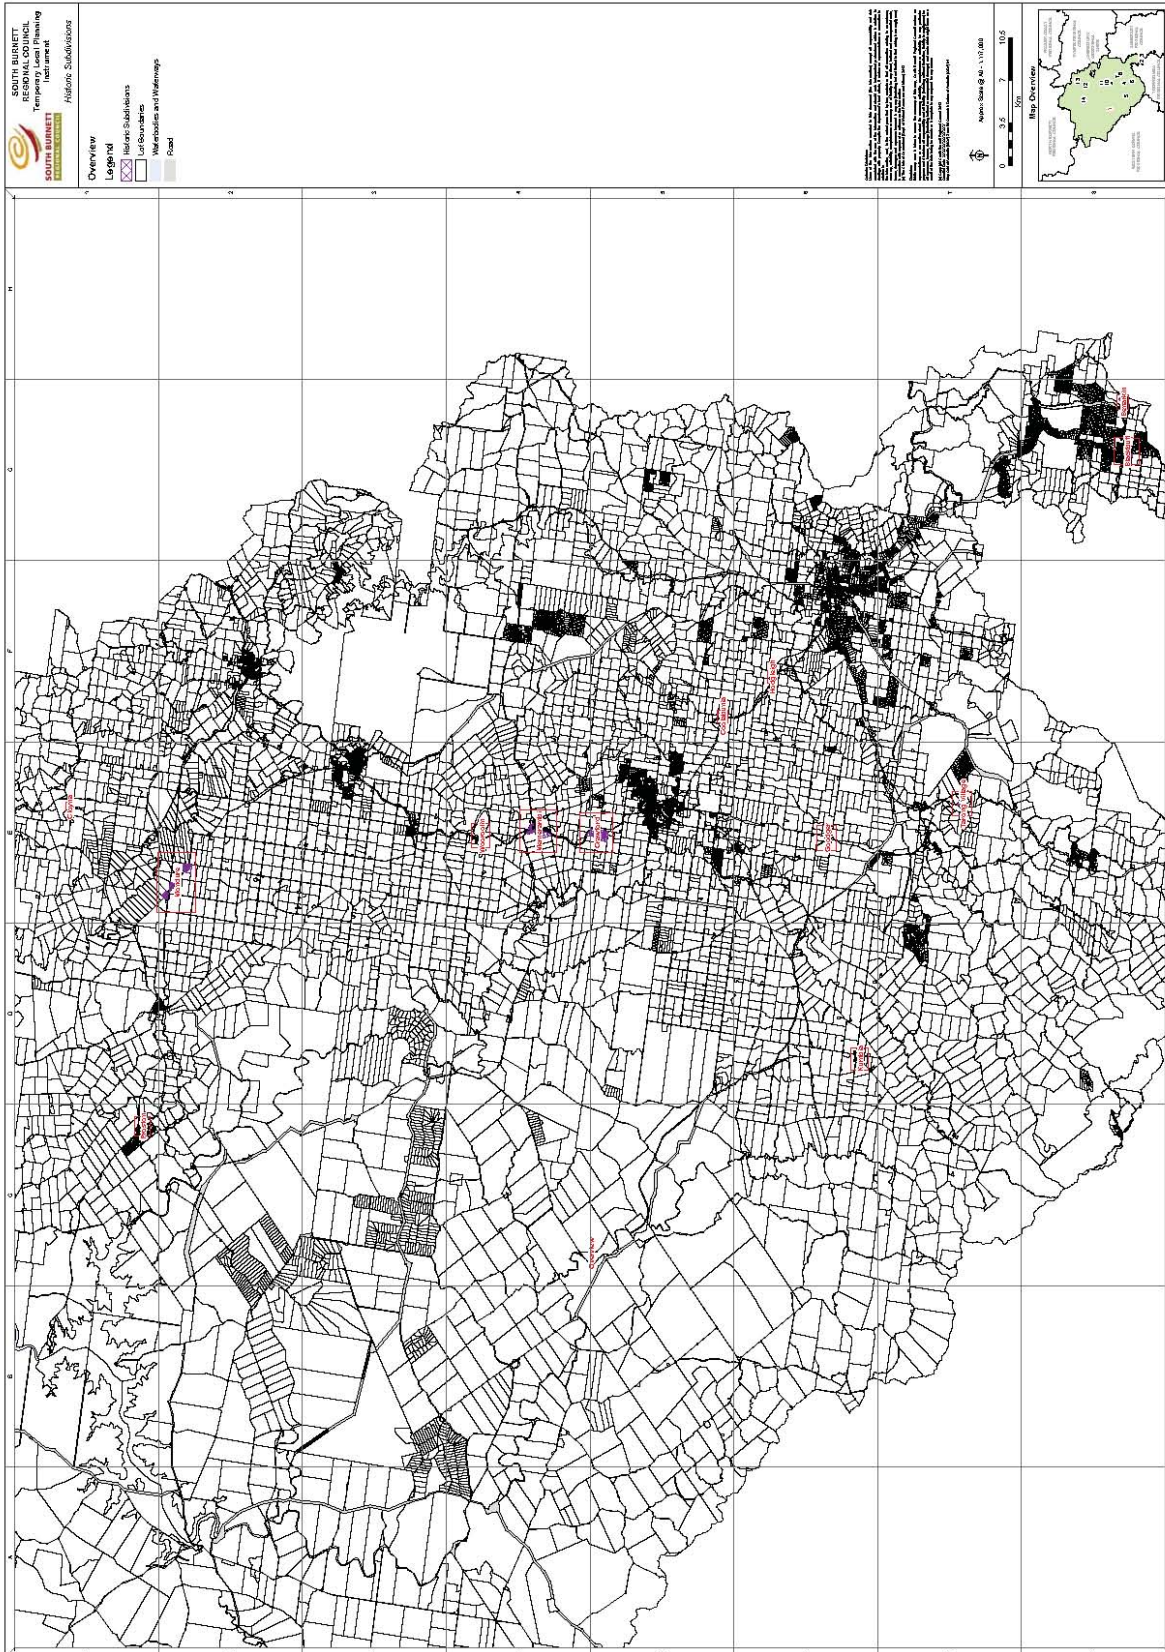

- a) The Purpose of the Historic Subdivision Code is the achievement of the overall outcomes sought for the establishment and use of Dwelling houses, Relatives Units or Annexed units on land identified on the maps within Appendix A and listed within Appendix B.
- b) The overall outcomes sought for a new Dwelling House, Relatives Unit or Annexed Unit are that the uses and works are sited and designed so:
- (i) *the wellbeing, safety and lifestyle of the community is maintained,*
 (ii) *off-site impacts are minimised to an acceptable level, and*
 (iii) *adequate access to physical and social services is provided.*

(2) ELEMENTS

(a) Servicing

	Specific Outcomes		Acceptable Solutions (if self assessable) Probable Solutions (if code assessable)
O1	The site has frontage to a gazetted and constructed road.	S1.1	No solution provided.
O2	The site has sufficient area to provide for on-site effluent disposal in accordance with the requirements of the <i>Queensland Plumbing and Wastewater Code</i> .	S2.1	No solution provided.
O3	The site is: (a) within a reticulated town water area, and reticulated water supply is provided, or; (b) outside a reticulated town water area, and a rainwater tank or other supplementary water supply system is installed with a minimum capacity of 45,000 litres.	S3.1	No solution provided.
O4	Habitable rooms within new buildings are 300mm above the highest known flood level, located on the highest part of the site and elevated to enhance flood immunity.	S4.1	No solution provided.
O5	New buildings are provided with a service line connection to the electricity supply and telecommunications networks.	S5.1	No solution provided.
O6	Stormwater drainage is discharged from the boundary of a development site: (a) without nuisance and annoyance to adjoining or downstream properties, (b) into natural systems, and (c) with conveyance to a lawful point of discharge including by way of easement where drainage systems traverse private property into natural systems.	S6.1	No solution provided.
O7	New buildings are confined to areas outside of overland flow paths and natural drainage features.	S7.1	No solution provided.

Subject: Boondooma Homestead Meeting 13/05/2014.

Hi Michael,

Can you please pass on my apologies for tomorrow's meeting. Unfortunately I am unable to attend, however, I also have very little to report in relation to the proposed lease.

As promised and discussed at the last meeting I have done some research on clause 3.01 especially as to the meaning of 'reasonable wear and tear ...excepted.' Basically, as this is part of a standard and commonly used clause contained within many leases there are a number of cases that have come before the courts for clarification and guidance. The courts have generally agreed that while the clause does give some protection to the Lessee regarding being responsible for the maintenance for the normal and reasonable day to day wear and tear, it does not automatically impose a duty on the Lessor to provide maintenance for 'reasonable wear and tear'. The courts have gone on to indicate that if, as a result of disputes over and/or the interpretative differences between the Lessee and the Lessor regarding this clause, the leased premises become no longer suitable for the purposes intended then the Lessee has the right to terminate the Lease as the Lessor is in breach of his duty of care.

Also as discussed the proposed lease has a number of clauses inserted that offer the Lessee some relief and in particular Clause 5.04, and any further assistance would need to be discussed and determined at a senior management level.

Please pass on the above information and my apologies.

Thanks
and
kind regards

Subject: Emma Anna proposal to South Burnett Regional Council

Hi Michael,

Attached please find a copy of my proposal to South Burnett Regional Council for a temporary public art installation.

As this document details, *imag_ne* has proven to be a hugely successful public work and warmly embraced by communities across Australia and Europe since its debut as part of Sculpture by the Sea Bondi in late 2008.

My proposal to South Burnett aims to present *imag_ne* in a new community as part of its ongoing adventures. The proposed project will capitalise upon my experience exhibiting this work to date whilst also creating a unique public project that will resonate with a new and diverse audience.

I will also forward you in a second email a copy of *Creativity*, referred to on Page 5 of this proposal and featuring *imag_ne* on Page 67. This recently published book showcases a range of leading international projects that are representative of the emerging practice of contemporary ephemeral public installation. I hope you find this an inspiring publication and an enjoyable read!

If you have any queries about the information contained within this proposal, or my art practice more generally, please feel free to contact me via this email address. Alternatively I am happy to arrange a time and day to call you to discuss any aspect of this approach.

I hope that this proposal is of interest to South Burnett Regional Council and I look forward to discussing any opportunities which may exist to assist in bringing *imag_ne* to your community with you in the near future.

Regards,

Emma Anna

Hi Michael and Wendy

We're programming 'Gallipoli- A Manual of Trench Warfare' next year, in line with our Centenary.

All of the information on this production is attached, it's target- any Australian over 12 years and very dramatic , set in the trenches.

As the secondary schools are studying 'war-related' topics next year, we think it will sell well.

Possible dates are mid-March 2015.

If you're keen, please advise and we can discuss prices etc..

Regards

Comments received via e-mail and facebook from the 2013 production.

- OMG !!! What a brilliant show and a great tribute to the average Australian that made the ANZAC's legendary. A must see show for every true blooded Aussie.
- Such a Fantastic show! Audience loved it! Well done guys!
- Just saw the show. FANTASTIC. So well done - great cast, excellent set, wonderful sound and lighting, great script. Congrats, Alli and John, and all involved xx
- Loved the show-- very evocative of the futility of war -- great performances by all cast
- Make the effort!!! You will not be disappointed! a fabulous production!
- Every young Australian should see this poignant interpretation of the ANZAC legacy. Sensitive performances by both Harry Bayliss and Steve Mitchell in a battle of dialogue! Fantastic set John, congrats to you and Alli et al from the playwright to the prompt. How appropriate for the last 2 performances today being All Souls Day!
- Very powerful!
- What an interesting and thought provoking piece about the difficulties of war from a soldier's perspective. A must see.
- Excellent set, costumes and a script of substance. Well done
- Great show Jally Noosa and all the team. Look forward to seeing it again in 2015.
- Amazing show -- congratulations. xxx
- So glad I got to see the show. Excellent play, fab set John (as always) Congratulations John and Alli !!!!
- This is a piece that will appeal to a wide demographic – school teachers will find it very accessible for their students.
- Good production, the set was amazing. Well done!!
- Clem Gorman (Playwright) takes you to a time and place where our diggers experienced diverse psychological and physical trauma. Not only was it a daily struggle to stay alive through repeated battles with the enemy, but it was also a struggle to stay sane through fear and isolation. Gorman emphasised the issues and interactions faced within this tiny community of the trench, highlighting the power struggles, class struggles, social interactions, family separation, communication, comradeship, loneliness and internal dilemmas. Aarne Neeme (Director) has done well in coordinating this story onto the stage and structuring the play in a way that it flowed and assisted in audience understanding. The props were impressive. The trench walls made you want to climb it and watch the battle below. All made out of wood with a sleep out to the side. Also very sturdy as the actors had to catapult themselves over it a few times. Guns, uniforms, bayonets and tobacco pouches, historically correct and all added to taking the audience back in time. The actors, we were impressed with the amount of dialogue that they had to remember! In some parts the actors took you into the moment.
- Gallipoli, an almost docu-style play, is well worth the ticket price. It thrusts the audience firmly into 1915 and the brutal conflict of that war, yet at the same time it's very much today, with strong parallels to the recent Australian involvement in Afghanistan. The emotional themes resonate along with the eternal question, why?

To the RADF Committee,

I am writing to request an extension to the 'Sense of Wonder' Project. Due to unforeseen circumstances, we have been unable to finish the project within the expected completion dates. This Concept development project is for a potential tour of the exhibition being held in the Wondai Regional Gallery in Dec 14/Jan15. It had been discussed about applying for an extension of a couple of weeks but that too may have proven a stretch to bring about a completion. Because of the complex nature of the project, our time now needs to be spent on making sure the exhibition is finished properly. Great progress has already been made on developing concepts for a tour, and we feel they could be well tested at the actual exhibition and the information from the patrons will be invaluable, along with photographs and feedback. I have attached a letter received from Kevin Wilson and also have attached a copy of a revised dates.

Thank you
Robyn Dower

February 25, 2014

TO THE RADF COMMITTEE,

I am writing to express my regret that I am unable to fully complete my role in the 'A Sense of Wonder installation concept development project' funded by an RADF grant of \$2,650

Unfortunately in late December, January and the first part of this month I had to deal with the illness and subsequent death of my father which necessitated a number of visits to Melbourne, all of which were at a time when I was still working full time in my State Library of Queensland curator's job.

As you know Robyn Dower applied for an extension on the grant given my inability to give time to the project at the time we had planned. We appreciated this extension, however, in further discussion more recently with Robyn and Kay, we thought it better for the artists to focus on the Wondai exhibition and to use that event to test any workshop concepts we had already developed and of course to gauge how the audience might engage with the works before we returned to developing the touring component.

I worked intensively with Robyn Dower and Kay Gorring in late 2013 on this project, travelling twice to Wondai and once to Caboolture for meetings and workshoping sessions. It was quite a complex project especially developing the touring component. I think we achieved great progress in developing the exhibition for Wondai but a compact and reasonably priced touring component still required more work and further prototyping.

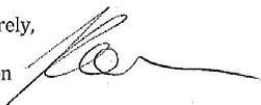

I completed 20 hours on the project and expended the travel and accommodation allowance on my various trips to Wondai and Caboolture to work with the artists. Essentially this leaves \$1000 of the grant unspent.

Robyn Dower will return these unspent grant monies. Once the exhibition is complete another application will be made for the same sum to complete the full project ie the inclusion of a model for touring. If this application is successful I would be happy to again work with Robyn and Kay. In the meantime I will continue to offer advice to Robyn and Kay over the phone/email etc as I believe the project is an exciting one.

Once again I am sorry that I was unable to complete the project within the time frame and thank you for your consideration and understanding in this matter.

Yours sincerely,

Kevin Wilson

Curating and the Bimblebox Art Project

talk by Jill Sampson

- Time: 11 am
- When: Monday 24 March, 2014
- Where: Wondai Regional Art Gallery

In 2012, Maidenwell Artist, Jill Sampson initiated the Bimblebox Art Project creating the opportunity for artists to visit and creatively document the endangered Bimblebox Nature Refuge. The resulting artwork has been developed into a national touring exhibition *Bimblebox: art - science - nature*.

Jill received an RADF grant from South Burnett Regional Council toward developing skills in the curating of art exhibitions. The RADF grant gave her the opportunity to receive on the job training and mentoring during the curatorial research and selection phase of the exhibition. Jill will talk about what she has learned from curator Beth Jackson while showing photos of the artists at work on Bimblebox and in their studio. She will also describe the process of a number of the artists and their resulting artwork. Examining the role of a curator, Jill will look at the different ways Beth approached her role and will talk through some of the challenges related to curating.

Bimblebox: art - science - nature is an exhibition of diverse artwork by seventeen Australian artists about the Bimblebox Nature Refuge in central, western Queensland. This touring exhibition will be launched at the Redland Art Gallery on May 18, 2014.

Update from Members	Update from Committee members on recent activities.		
Melinda Bradford – CTC	No update provided.		
Paula Numan – PCYC	PCYC has just been through its annual Branch Performance Review (BPR). South Burnett PCYC have fantastic programs, The Friday Night Live is one of their most successful youth programs. All their programs are heavily reliant on volunteers. Their priority is crime prevention and youth development programs. The gym and health and fitness membership & activities help keep the facility operating. The "Time 4 Kids" was successful and they raised just over \$2,000. It was a State wide PCYC initiative; however the funds raised is utilised by the local PCYC.		
Janine Pay – NPRSR	The upcoming "Advanced Sport Strapping" workshop to be held on 20 May at Kingaroy Senior Soccer Club to date has 27 registrations. Full registration for a workshop is no more than 32-40 participants. Janine will be requesting A "Rewrite Your Constitution" workshop for Nanango hopefully later in the year. This would be an ideal workshop for clubs in the South Burnett. Janine advised that Bill Stewart, the Indigenous Sport and Recreation Advisor based in Bundaberg and currently servicing Cherbourg will now be taking over the Murgon service area; however Janine will continue to oversee the rest of the South Burnett.

Dear Kerry

Graham House Community Centre would like to thank the Healthy Communities Committee for their support of the Closing the Gap Event which was held at the Castra Café, Murgon on 26th March.

The focus of the day was to raise awareness of the gap that exists between indigenous and non-indigenous Australians across a range of areas targeted by the Australian Government. Twenty five service providers from across the region attended to listen to guest speakers present on the progress made in our local community in reducing Indigenous disadvantage with respect to life expectancy, child mortality, access to early childhood education, educational achievement and employment outcomes.

One of the huge benefits of the day was that the guest speakers were local people, people who are very much in touch with their community. Speakers were able to provide service providers with then and now scenarios, highlight areas where improvements have been made and how this has been achieved, address areas where improvement has been slow or not at all and touch on the range of services and programs that have been implemented to meet the challenges of closing the gap. The clear message from the day was that education is the key in enabling people to live longer, healthier and happier lives.

Thank you to the Healthy Communities Committee for sponsoring the nutritious and healthy morning tea and lunch which was enjoyed by all.

Regards

Press Release

Deadly ears make for deadly learners

Nearly 1000 South Burnett children have had their hearing problems solved due to the work The Deadly Ears Van.

It services 32 schools, 2100 children and was able to take 900 children with various conditions off its programme by getting them to specialists.

Before the Deadly Ears Van was established specialists would come to Cherbourg to screen children's ears just twice a year.

Then in 2008 Dr Anthony Smith brought a medical scope to the area that local health professionals could be trained to use.

A following meeting led to the thought of a mobile van being established.

Dr Smith thought it a bonza idea and raised the \$500,000 necessary to make it happen later that year.

Cherbourg Community Health's Cecil "Pickle" Brown has operated it ever since and tests children from prep to Year 12.

The results are sent home and children are brought to their local hospital or referred to a health nurse, if need be.

If a potential problem is identified tests are sent online to Brisbane for specialists to review.

A Brisbane appointment is then made if major work is needed, or a booking made for one of the 48 minor operations that take place in Cherbourg twice a year.

These are done on a voluntary basis by all specialist medical staff who journey to the town.

"If a child can't hear, black or white, they can't learn," Mr Brown said.

"This programme is vital to our children's future."

Press Release

Clowry hopes to end in old people's home

Clowry Kennel reckons he's lucky to be alive.

Not because he's a NSW supporter living in Queensland but because he's 55 and Indigenous.

The DATSIMA project officer has lived, worked and travelled extensively throughout Australia's remote areas after becoming Australia's first Indigenous police officer more than 30 years ago.

"When I was going to uni in 1984 the life expectancy of an Indigenous male was 45," Mr Kennel told a Close the Gap function held at Castra Retirement Village in Murgon.

"I'm 10 years past that so either things are working or I've changed my lifestyle; a bit of both maybe."

Mr Kennell admitted he was not a good school student but said the Murgon-Cherbourg and surrounding area's schools were "second to none".

"The kids are learning because of them," Mr Kennell said.

He said many projects and efforts were made to help people but the best way to ensure children grew up as happy, healthy adults was for parents to send them to school every day.

"The amount of Indigenous males 75 or older living in the South Burnett you could count on one hand," Mr Kennell said.

"Our life expectancy is still 17 years before whites.

"We are making inroads but we're making it slowly.

"Our kids are slowly picking it up.

"When (Murgon State High School principal) Greg Smith told me he had 10 of our kids graduate Year 12 I thought 'that's a big achievement'.

"We don't need the gap to shut quickly we just need to slowly bring it about.

"I'm evidence we can do that.

"I should've been dead 10 years ago at 45."

Press Release

Clowry longs to grow old with family

Clowry Kennell said education was the key to enabling people to live longer, healthier and happier lives.

He said people and service providers needed to inform themselves of everything available to prevent or overcome conditions that could lead to people having a hard life.

“You need to develop a knowledge of the programmes that are being carried out in the schools and community,” the Indigenous project developer told an audience at a Close the Gap function held at Castra Retirement Village in Murgon on March 25.

“When you broaden your knowledge you’ll know why our people are the way they are.

“Read a bit more, be a bit more familiar with the programmes available and the symptoms that develop with our young people.

“We want your understanding, not your sympathy. We want you to support and empower us to close the gap because we want that gap closed.

“I want to sit here when I’m 70 or 80 and sit with my brothers and sisters.”

Cherbourg Community Health Service and Cherbourg Hospital manager Tarita Fisher addressed the group and said her bodies offered many services beyond doctors’ appointments to improve people’s physical and mental wellbeing.

These include sexual and mental health services, drug and alcohol rehabilitation, chronic disease clinics, palliative care, grief and loss counselling, community engagement activities, young mothers groups, sporting events, education services...

“We, at the moment, have a lot of health problems not being managed properly (within the community) and we’re trying to address that,” Ms Fisher said.

“We have much to earn and much to deliver and are thankful for the Cherbourg Health Group that’s always given direction for us to close the gap.”

Mr Kennell said if people improved their knowledge on how to access such services it would make everybody’s job much easier.

“We all need to work together,” he said.

Press Release

Hard work is closing the gap

Education is the key to enabling people's life outcomes to equal anybody else's.

That message came through loud and clear at the Close the Gap meeting held by Graham House Community Centre in Murgon on March 25.

"A lot of chronic diseases that affect our people are preventable," Cherbourg Community Health and Hospital manager Tarita Fisher said.

"Diabetes is one; suicide; mental health..."

"Education is really important. Without education you're unlikely to have a job when you leave school and education allows for people to live a healthy lifestyle.

"We need to encourage our children to get the education they're entitled to."

Tarita said her parents were forced to leave school to work on stations from the age of about 10 and she had found reading, writing and school hard well into her teens.

But the former nurse and university honours student with a degree in Health Science – Indigenous Health said she battled on with the support of her family.

Her comments came after the gathering heard how the Deadly Ears van had improved outcomes for thousands of children and Murgon state primary and high schools were working to get the best education outcomes for their students.

Murgon State School principal Pamela O'Loughlin said her school had achieved strong results due to staff constantly receiving training updates and being committed to students getting the best results they could.

Ms O'Loughlin said her school's 2008 NAPLAN results were disappointing but 2013 Year-5 data went "through the roof".

Morning homework clubs are run to help children whose family environments make it hard for them to do revision of an evening.

English and maths classes are streamed to ensure children are being taught at the same level and this has allowed for improvements.

NAPLAN practise sessions are held.

Interactive online lessons that engage children are given.

And two full-time attendance officers work to encourage families to send their children to school every day on time.

Ms O'Loughlin said coming to school 10 minutes late could leave a child struggling to catch up with the new curriculum as class work started the minute children sat down.

"We have kids that pick and choose their days to come," Ms O'Loughlin said.

"How the heck you're going to get along if you miss that much school..."

"What it's basically about is coming to school every day and that's what you can do to close the gap.

"And there is a gap.

"NAPLAN data shows there are Indigenous children that do really well. They're parents support them, give them regular sleep times, good breakfasts and lunch.

"Then there are parents who don't know what to do and they work with Graham House and other organisations."

Murgon State High School principal Greg Smith said a strong focus was given to improving literacy.

Streaming students with others of the same learning level in Years 8, 9 and 10 had helped improve results by 40 per cent and one child increased their reading level by four years within 12 months.

"Reading ability leads directly to better outcomes," Mr Smith said.

He said 10 of his school's 47 graduates in 2013 were Indigenous and this showed great improvement.

"That's a really good percentage (in comparison to others years)," Mr Smith said.

"Research shows if you complete Year 12 you're twice as likely to have better life outcomes.

"With females it's even higher."

Mr Smith said the dropout rate of Indigenous students in Years 8 and 9 were high and his staff now worked one-on-one to help them complete their assessments.

"We also do a lot behind the scenes that nobody is aware of," Mr Smith said.

He and Ms O'Loughlin work closely together with Cherbourg principal Peter Sansby but agreed the biggest difference to a child's overall wellbeing came from parents sending them to school every day on time.

"That's the way to make the biggest difference," Mrs O'Loughlin said.

Request for the renaming and installation of signage for the northern section of Parishes Road to Fitzgerald Road Stalworth.

Summary

This report addresses the request by Darryl Fitzgerald to name a section of Parishes Road as Fitzgerald Road. A request has been received through the Divisional Councillor from Darryl Fitzgerald requesting that the northern section of Parishes Road be renamed as Fitzgerald Road in honour of his late father Jim Fitzgerald. This road is unsealed and extends from Boondooma Dam Road for approximately 250 metres and serves as access to the Fitzgeralds property in addition to two (2) other properties that have frontage to it.

Officer's Recommendation

That Council approve the request to rename the section of Parishes Road north of Boondooma Dam Road to Fitzgerald Road on the grounds that it is a minor section of road that serves as access to the property that is owned by the Fitzgeralds.

Financial and Resource Implications

The financial and resource implications would be in the order of \$200 for the supply and erection of signage in accordance with engineering guidelines.

8.1.2 F - 1302243 - Amendment to Operational & Capital Budget**Document Information****IR No** 1302243**Author** General Manager Finance, Property & Information Technology**Date** 7 May 2014

Précis

Advising of proposed changes to be made to the 2013/2014 Budget.

Summary

In accordance with Section 170(3) of Local Government (Finance Planning Documents) Regulation 2012:

“The local government may by resolution amend the budget for a financial year at any time before the end of the financial year”

An amendment to the budget is required to cover the following adjustments:

- Road Maintenance – The budget allocation for road maintenance for 2013/14 was \$5.477m. Current expenditure is approximately \$5.54M this effectively means that the budget has already been spent and no further road maintenance can be undertaken which is not practical. Consequently, it is recommended to transfer \$500,000 from Road Levy Capital Works to road maintenance to cover the balance of the financial year. This means that some proposed capital works projects will not now be undertaken. A list of the proposed changes will be provided to Councillors by General Manager, Infrastructure.
- Capital Works Project – While undertaking the recent renovations (replacing the roof) at the Kingaroy Private Hospital it was discovered that the electrical wiring was in need of repair. The cost to replace the wiring is approximately \$80,000. This work has commenced with funding to come from Asset Replacement Reserve.

Officer's Recommendation

That the following changes be made to Council's 2013/2014 budget:

Amendment	Revised Budget	Comment
+\$500,000	\$5,977,240	Increase to Road Maintenance Budget Allocation
-\$500,000	\$1,054,800	Decrease in Road Levy Capital Works Budget
+\$80,000	\$100,000	Additional funds for Capital Works Project at the Kingaroy Private Hospital

Financial and Resource Implications

The above changes do not have any direct impact on Council's overall operational position for 2013/2014. However, there will be a further reduction in Reserves funds held for future capital works.

Link to Corporate/Operational Plan

Revenue Policy for the Financial Year ending 30 June 2015.

Summary

Section 193 of the *Local Government Regulation 2012* requires a Local Government to adopt a Revenue Policy for each financial year. The Revenue Policy must include:

- Details of the principles that Council intends to apply for:-
 - ✓ Levying rates and charges;
 - ✓ Granting concessions for rates and charges; and
 - ✓ Recovering overdue rates and charges; and
 - ✓ Cost-recovery methods; and
- If the Local Government intends to grant concessions for rates and charges – The purpose for the concessions and;
- The extent to which physical and social infrastructure costs for new development are to be funded by charges for the development.

The policy has been prepared having regard to the current legislation and information provided by Council during rating workshops that have been conducted over the past months.

Officer's Recommendation

That in accordance with Section 193 of the *Local Government Regulation 2012* the following Revenue Policy for the year ending 30 June 2015 be adopted.

1. LEGISLATIVE AUTHORITY

Section 193 of the Local Government Regulation 2012.

2. BACKGROUND AND / OR PRINCIPLES

The purpose of this Revenue Policy is to set out the principles used by Council for:

- The making and levying of rates and charges; and
- The recovery of rates and charges; and
- Exercising of its power to grant rebates and concessions for rates and charges.

3. POLICY STATEMENT

Introduction

Under the *Local Government Act 2009*, the Council is required to have a system of financial management that includes a Revenue Policy. Further, under the *Local Government Regulation 2012*, Council must review its Revenue Policy annually in sufficient time to allow an annual budget that is consistent with the Revenue Policy to be adopted for the next financial year. The Revenue Policy is a component of Councils Financial Plan and is intended to be a strategic document. Its adoption, in advance of setting the budget, allows Council to set out the principles that it will use to set its budget and to identify in broad terms the general strategy to be used for raising revenue.

Revenue Policy 2014 / 2015

Section 193 of the Local Government Regulation 2012 requires a Local Government to adopt a Revenue Policy for each financial year. The Revenue Policy must state:

- Details of the principles that Council intends to apply for:
 - Levying rates and charges;
 - Granting concessions for rates and charges;
 - Recovering overdue rates and charges; and
 - Cost-recovery methods.
- If the Local Government intends to grant concessions for rates and charges – the purpose for the concessions; and
- The extent to which physical and social infrastructure costs for new development are to be funded by charges for the development.

This Revenue Policy will specifically address the legislative requirements in respect of those policy matters detailed above. The Policy will clearly state the principles used in making, levying and recovery of rates and charges, as well as the principles governing any rebates and concessions provided, and any limitations on these matters.

Levying of Rates and Charges

Rates and charges are determined after due consideration of the following:

- Council's legislative obligations.
- The needs and expectations of the general community as determined by formal and informal consultation and survey processes.
- The cost of maintaining existing facilities and necessary services.
- The need for additional facilities and services.
- Equity by ensuring the fair and consistent application of lawful rating and charging principles, without bias, taking account of all relevant considerations, and disregarding irrelevancies such as the perceived personal wealth of individual ratepayers or ratepayer classes.

In levying rates and charges, Council will apply the principles of:

- Making clear what is the Council's and each ratepayers responsibility to the rating system;
- Making the levying process, granting discount and any refund of rates and charges as simple and efficient to administer as possible;
- Timing the levy rate notices to take into account the financial cycle to which the ratepayers are accustomed or may adapt to; and
- Flexibility by providing payment arrangements to ratepayers with a demonstrated lower capacity to pay, along with a wide array of payment options.

Council will also have regard to the principles of:

- Transparency of process.
- Simplicity and efficient administration.
- Flexibility to take account of changes in the local economy, extraordinary circumstances and impacts that different industries may have on Council's infrastructure.

General Rates

General Rates revenue provides essential whole of community services not funded through subsidies, grants, contributions or donations received from other entities, or not provided for by other levies or charges. Council will consider all full cost recovery options before calculating the general rate.

Revenue Policy 2014 / 2015

Council is required to raise an amount of revenue it sees as being appropriate to maintain assets and provide services to the Region as a whole. In deciding how that revenue is raised, Council has formed the opinion that the differential general rating scheme provides the most equitable basis for the distribution of the general rate burden.

In formulating the differential general rating scheme Council has considered equity by implementing distribution of the general rate based on the land use. Where necessary a particular class of land use is further 'subdivided' on a geographic basis.

The Unimproved Valuation / Site Value for each property are the basis for determining the amount of the general rate levied. Council recognises that significant valuation fluctuations may have an adverse effect on customers. Council considers that this impact should be smoothed so that the impact in any one year is reduced. Council may achieve this by establishing new differential rating categories, averaging the valuation in accordance with *Sections 74 to 76 of the Local Government Regulation 2012* or by limiting rate increases in accordance with *Section 116 of the Local Government Regulation 2012*.

Separate or Special Rates

Where appropriate, Council will fund certain services and facilities by means of separate or special rate or charge in accordance with *Part 6 & Part 8 of the Local Government Regulation 2012*. Council will levy special rates and charges on certain properties that are considered to be specially benefited by the provision of specific services, facilities or activities.

Special rates are based on the Unimproved Valuation / Site Value of the land and special charges are a flat charge per property, where this is considered to provide a more equitable basis for the sharing of the cost.

Other Charges

In general, Council will be guided by the principle of user pays where it can easily identify the cost associated with supplying a particular service. In particular Council may use this principle for water supply, sewerage, refuse collection etc. Provided however that where Council considers that moving to full cost recovery for a particular service may cause undue hardship Council will "phase in" the full cost recovery over a period of time.

Recovery of Rates and Charges

Council will exercise its rate recovery powers in order to reduce the overall rate burden on ratepayers. It will be guided by the principles of:

- **Transparency** – by making clear the obligations of ratepayers and the processes used by Council in assisting them meet their financial obligations;
- **Simplicity** – by making the processes used to recover outstanding rates and charges clear, simple to administer and cost effective;
- **Capacity to Pay** – by determining appropriate arrangements for different sectors of the community;
- **Equity** – by providing the same treatment for ratepayers with similar circumstances; and
- **Flexibility** – by responding where necessary to changes in the local economy.

Concessions for Rates and Charges

Statutory provision exists for the Council to rebate or postpone rates in certain circumstances. These provisions are detailed in *Part 10 of the Local Government Regulation 2012*.

Revenue Policy 2014 / 2015

In considering the application of concessions, Council will be guided by the principles of:

- **Equity** – by having regard to the different levels of capacity to pay within the local community;
- **Consistency** – by applying the same treatment for ratepayers with similar circumstances;
- **Transparency** – by making clear the requirements necessary to receive concessions; and
- **Flexibility** – by allowing Council to respond to local economic issues.

The predominant purpose for which Council grants concessions is to:

- Assist pensioners (who are on very limited incomes), in meeting their obligations to pay Council's rates and charges; and
- Assist various Religious Organisations, Community Groups and Sporting Organisations who provide a public service or community benefit throughout the region in meeting their obligations to pay Council's rates and charges.

Cost Recovery Fees

Section 97 of the Local Government Act 2009 allows Council to set cost recovery fees.

The Council recognises the validity of fully imposing the user pays principle for its cost recovery fees, unless the imposition of the fee is contrary to its express social, environmental and other corporate goals. This is considered to be the most equitable and effective revenue approach, and is founded on the basis the Region's rating base cannot subsidise the specific users or clients of Council's regulatory products and services.

However, in setting its cost recovery fees, Council will be cognizant of the requirement that such a fee must not be more than the cost to Council of providing the service or taking action to which the fee applies.

Commercial Charges

Sections 9 (Powers of local governments generally) and 262 (Powers in support of responsibilities) of the Local Government Act 2009 provide the Council, as a legal entity, with powers to charge for services and facilities it supplies other than a service or facility for which a cost recovery fee may be fixed.

Such commercial charges are for transactions where the Council is prepared to provide a service and the other party to the transaction can choose whether or not to avail itself of the service.

The nature, level and standard of the entitlement, facility or service is considered by the Council in the setting of commercial charges. Central to deliberations on these matters is the Council's community service obligation and the principle of social equity. The Council may set such a charge with the aim of achieving a profit from the service or facility provided.

The principle of "user pays" is considered where the provision of a service, entitlement or facility may be in direct competition with private enterprise.

Funding of Physical and Social Infrastructure Costs

Council requires developers to pay reasonable and relevant contributions towards the cost of infrastructure required to support the development. Specific charges are detailed in "Adopted Infrastructure Charges" resolution adopted by Council.

Revenue Policy 2014 / 2015

These charges are based on normal anticipated growth rates. Where a new development is of sufficient magnitude to accelerate the growth rate of a specific community within the region, it may be necessary to bring forward social infrastructure projects. Where this occurs, Council expects developers to meet sufficient costs so that the availability of facilities is not adversely affected and so that existing ratepayers are not burdened with the cost of providing the additional infrastructure.

4. SCOPE

Applies to all revenue raising undertaken by Council.

5. POLICY OBJECTIVES

The purpose of this Revenue Policy is to set out the principles used by Council for:

- The making and levying of rates and charges;
- The recovery of rates and charges; and
